IMA Deployment Opportunities

- **OVERVIEW**
- Where do I find the deployment opportunities?
- What types of duties will the IMAs have?
- Coordination/Approval process
- Points of contact
- Questions

IMA Deployment Opportunities

- **WHERE TO FIND DEPLOYMENT OPPORTUNITIES**
- (6XXX) Functional Managers (FAMs)
  - Air Staff (e.g. Air Force Studies & Analyses Agency)
  - MAJCOM
- Defense Contract Management Agency (DCMA)
- Word of mouth: heard of tasking w/in SPO
- HQ AFRC owned taskings
  - Volunteer basis
- In the future IMAs may be in AEF buckets
  - Processes in the works at Air Staff, HQ AFRC

IMA Deployment Opportunities

- **COMBAT ANALYST 61SA (AFSAA)**
- Personnel trained in Operations Research (OR)
- Deploy to support AOCs and warfighting staffs
- Improve commanders decision making process
  - Integrate knowledge across stove-piped systems and processes
  - Provide unique perspective & problem solving skills
- Discover problems not recognized as significant
- Improve implementation of new warfighting capabilities
- Guide assessment of ongoing operations

I want my ORs (61SAs) to be ops line officers and operational, *rather than pure S&Es.*"

SECAF - 4 Jun 03

Developing Combat Analysts
Through Functional Management of 61SAs

'Analysts will be key in providing essential information to future CFACCs.'
Gen Moseley, CFACC OPERATION IRAQI FREEDOM

Objective:
Enhance USAF planning and execution of full spectrum Warfare using Operations Research Analysts as force multipliers on the operational team

Force Development: Recruit, train, and develop analysts with the objective of supporting the AF operational and warfighting mission requirements

Operational Experience: Analysts at Wings, NAFs, MAJCOMs, and Combatant Commands to prepare and train for combat contingency operations

Warfighting Capability: Ensure processes, policies, and tools are in place that support development of a quick-turn analysis capability required to support combat operations

Not a new idea…
History of Operations Research…

WWII – Birth of OR

- 1939 Air Ministry at Bawdsey Research Station (Great Britain)
  - Assigned groups of scientists to military staffs to serve as scientific advisers concerning strategic and tactical problems
  - Collected and analyzed statistical resul operations and made recommendation
- Results
  - Devised new tactical rules and applicat of weapon systems
  - Supported military decisions on comba operations, wea t and

Science at War

05-6	091W0	Bishkek-Manas Kyrgyzstan	122 days	9/10	Jan 2006	-376 AEW/CV (Pilot or Nav)	**Nomination Pending**

IMA Deployment Opportunities

"General Officers, Commanders, and Senior Officers of the Air Force Reserve:

I am writing this to you for two reasons. First, the Air Force has a continuing need for highly qualified and experienced AFRC volunteers to fill key senior level positions at deployed locations overseas. Most are in CENTCOM and for 120 days. Second, I am not convinced that we in AFRC have adequately communicated the need for volunteers or encouraged our best people to seriously consider stepping forward to fill a deployed leadership position within the next 12 months... I know that there are sacrifices involved in filling any of these tours shared by your families and employers... Whatever decisions you make, and whether volunteering at some time in the future fits your unique personal circumstances... Every Airman is expeditionary and our AEF needs you!"

Regards,

John Bradley, Lieutenant General, USAF
Chief, Air Force Reserve

IMA Deployment Opportunities

- **COORDINATION/APPROVAL PROCESS**
- Find deployment opportunity: websites, FAM contact, SPO
- Volunteer through: FAM, SMC/CCV, SMC/AX, etc.
- Coordinate through SMC/CCV
- SMC/CCV coordinates release through AFSPC/CR
- SMC/CCV notifies 61st MSS and SMC/AX
- AFSPC/CR releases the IMA to the AEF cell
- Point of slide is that there are several organizations that need to be in the loop!
- After release but before deployment there's a lot of legwork to get done (firing, chem warfare, immunizations, etc.)
